Dear City Planner,

I wish to lodge a formal complaint regarding the Type III permit, File No. 2402-089.

I have seen in the public notice that the storm water egress will be crossing S E 27th street and emptying into the open ditch on the southern border of our property.

We have been in our home for 50 years and have seen the southwest corner of our land sink more than 6 feet in the last 20 years. I believe this is happening because many newer homes, uphill and around our house, have been given variances on impermeable surface rules increasing runoff and because we still have a ditch rather than a culvert system to handle the water. Adding an additional home to the runoff water in the ditch will only cause further and faster erosion of my land.

I have also noticed the carefully worded phrase "No complaints about flooding". There have been many winters and early springs where the culvert opening at the northeast corner of 61st Ave SE and SE 27th Street
