Hello Ruji,

I hope all is well.

I am emailing to request a **post-permit revision**. I am hoping this review could be expedited as construction is currently in progress.

Please see the email below and the revised plan for your review and approval.

Thank you so much for your assistance!

Tony

Hi Tony,

Per discussion with Johnson, the change in the revised plan as clouded shows the proposed right-of-way concrete storm pipe extension section from originally approved PVC to concrete pipe for city approval submittal.

Please let me know if you have any questions. Thank you.

Choomeng Chin
