SUBJECT: Stream Buffer Mitigation Plan Confirmation for Nestler and Spare Residence, 8265 SE 61st Street, Parcel 192280-0210 Mercer Island, WA

Dear Max:

I have reviewed the minor site plan modifications for conformance with our proposed stream buffer impact and mitigation plan. Since the total amount of buffer impact appears to have been slightly reduced, it is my recommendation that the buffer enhancement planting plan remain as currently designed.

If you have any questions, please give me a call.

Sincerely,

ALTMANN OLIVER ASSOCIATES, LLC
