Subject: Response Letter to City Comment for Record #2408-141- 3325 84TH AVE SE, MERCER ISLAND, Nikki Hurkadli

To: Permit Division  
Mercer Island, Washington

1. What type of tree is this?

Where will the replacement tree be placed?

Please provide an arborist that meets the requirements of MICC 19.10.090(C).

**Response: New tree will be placed in the backyard. The current tree is a 7" dia apple tree which does not require an arborist.**

2. Please include a copy of the GFA calculations on the site plans. Ensure that they match the calculations on the site development worksheet.  
Proposed GFA on site plans is 3,845 Sf and on the site development worksheet it is 3,567 sf

**Response: The GFA calculations are already available on the site plan sheet in red. we are reloaded the site dev worksheet to show 3,845 SF of GFA to match**

Sincerely,
