SEPA REVIEW

The State Environmental Policy Act (SEPA), chapter [43.21C RCW](#), requires all governmental agencies to consider the environmental impacts of a proposal before making decisions. An environmental impact statement (EIS) must be prepared for all proposals with probable significant adverse impacts on the quality of the environment. The purpose of this checklist is to provide information to help you and the agency identify impacts from your proposal (and to reduce or avoid impacts from the proposal, if it can be done) and to help the agency decide whether an EIS is required.

REVIEW PROCESS – TYPE III LAND USE REVIEW

Type III reviews require the exercise of discretion about nontechnical issues. Type III reviews require a pre-application meeting, letter of complete application, notice of application mailing and posting, a 30-day public comment period, notice of decision, and the decision is made by the Code Official. Type III reviews do not require a public hearing.

SEPA reviews are also subject to the environmental procedures outlined in [MICC 19.21](#). When the city is the lead agency for a proposal, the responsible official shall supervise compliance with the threshold determination requirements and, if an EIS is necessary, shall supervise preparation of the EIS.

Upon the receipt of an application for a proposal, the receiving city department shall, and for city proposals, the initiating city department shall, determine whether the proposal is an action potentially subject to SEPA and, if so, whether it is categorically exempt. This determination shall be made based on the definition of action ([WAC 197-11-704](#)), and the process for determining categorical exemption ([WAC 197-11-305](#)). As required, city departments shall ensure that the total proposal is considered. If there is any question whether or not a proposal is exempt, then the responsible official shall be consulted.

PRE-APPLICATION MEETING

A Pre-Application Meeting is used to determine whether a land use project is ready for review, to review the land use application process, and to provide an opportunity for initial feedback on a proposed application. Some land use applications require a pre-application meeting – in particular: short and long subdivisions, lot line revisions, shoreline permits, variances, and critical area determinations. The City strongly recommends that all land use applications use the pre-application process to allow for feedback by City staff.

For more information on the Pre-Application Meeting process, please refer to the [Pre-Application Meeting Request Form](#).

FEES

Fees applicable to this project:

- SEPA Review
- Environmental Impact Statement

Refer to the City of Mercer Island [Fee Schedule](#) for current permit fees.

PROPERTY INFORMATION

Property Address: 5236 W MERCER WAY
 Parcel Number(s): 192405-9324

Gross Lot Area(s): 37,350 SF
 Net Lot Area(s): _____
 Zone: R15

Shoreline Environment Designation (if located within 200 feet of Lake Washington):
 Urban Residential
 Urban Park

CRITICAL AREAS ON PROPERTY

GEOLOGICALLY HAZARDOUS AREAS

- Potential Landslide Hazard
- Erosion Hazard
- Seismic Hazard
- Steep Slope
- None

WATERCOURSES

- Type F
- Type Np
- Type Ns
- Piped
- Unknown

WETLANDS

- Category I
- Category II
- Category III
- Category IV
- Unknown

SUBMITTAL CHECKLIST

In addition to the items listed below, the code official may require the submission of any documentation reasonably necessary for review and approval of the land use application. An applicant for a land use approval and/or development proposal shall demonstrate that the proposed development complies with the applicable regulations and decision criteria.

- 1. Development Application Form.** Provide a completed and signed [Development Application Form](#).
- 2. Pre-Application Meeting.** [Pre-Application Meetings](#) are required for Type III & IV Land Use Permit Applications.
- 3. Project Narrative.** The project narrative should describe the proposed development, including any anticipated phases.
- 4. Title Report.** Less than 30 days old.
- 5. Affidavit of Ownership.** An Affidavit of Ownership, signed before a notary.
- 6. Affidavit of Agent Authority.** An Affidavit of Agent Authority, signed before a notary, if applicable.
- 7. Development Plan Set.** Refer to the [Land Use Application Plan Set Guide](#) for preparing plans.
- 8. Concurrent Review Form.** Provide a completed [Concurrent Review Form](#) if the applicant wishes to request consolidated review for two or more land use applications. Refer to [MICC 19.15.030\(F\)](#) for land use application reviews that may be consolidated.
- 9. SEPA Checklist.**
- 10. Fees.** Payment of required fees.

I HEREBY CERTIFY THAT I HAVE READ THIS APPLICATION AND SUBMITTAL CHECKLIST AND ALL REQUIRED APPLICATION MATERIALS ARE INCLUDED IN MY APPLICATION SUBMITTAL, UNLESS WAIVED BY THE CODE OFFICIAL. ALL INFORMATION SUBMITTED IS TRUE AND COMPLETE TO THE BEST OF MY KNOWLEDGE. I ACKNOWLEDGE THAT WILLFUL MISREPRESENTATION OF INFORMATION WILL TERMINATE THIS APPLICATION. I UNDERSTAND THAT MY SUBMITTAL WILL BE REVIEWED FOR COMPLETENESS AND, IF FOUND TO BE COMPLETE, WILL BE PROCESSED PURSUANT TO THE PROVISIONS OF CHAPTER 19.15 MICC.

INSTRUCTIONS FOR APPLICANTS

This environmental checklist asks you to describe some basic information about your proposal. Governmental agencies use this checklist to determine whether the environmental impacts of your proposal are significant, requiring preparation of an EIS. Answer the questions briefly, with the most precise information known, or give the best description you can.

You must answer each question accurately and carefully, to the best of your knowledge. In most cases, you should be able to answer the questions from your own observations or project plans without the need to hire experts. If you really do not know the answer, or if a question does not apply to your proposal, write "do not know" or "does not apply." Complete answers to the questions now may avoid unnecessary delays later. Some questions ask about governmental regulations, such as zoning, shoreline, and landmark designations. Answer these questions if you can. If you have problems, the governmental agencies can assist you. The checklist questions apply to all parts of your proposal, even if you plan to do them over a period of time or on different parcels of land. Attach any additional information that will help describe your proposal or its environmental effects. The agency to which you submit this checklist may ask you to explain your answers or provide additional information reasonably related to determining if there may be significant adverse impact.

USE OF CHECKLIST FOR NONPROJECT PROPOSALS

For nonproject proposals complete this checklist and the supplemental sheet for nonproject actions (Part D). The lead agency may exclude any question for the environmental elements (Part B) which they determine do not contribute meaningfully to the analysis of the proposal. For nonproject actions, the references in the checklist to the words "project," "applicant," and "property or site" should be read as "proposal," "proposer," and "affected geographic area," respectively.

A. BACKGROUND

1. Name of proposed project, if applicable:

5236 W MERCER WAY RESIDENCE

2. Name of applicant:

5236 W MERCER WAY

3. Address and phone number of applicant and contact person:

~~N5 ARCHITECTURE/SETH HALE, 4200 STONE WAY N, SEATTLE, WA 98103; 206-300-5339~~

4. Date checklist prepared:

12/12/2024

5. Agency requesting checklist:

MERCER ISLAND

6. Proposed timing or schedule (including phasing, if applicable):

CONSTRUCTION TO BEGIN AS SOON AS PERMITS ARE AVAILABLE, NO PHASING IS ANTICIPATED.

7. Do you have any plans for future additions, expansions, or further activity related to or connected with this proposal? If yes, explain:

NO

8. List any environmental information you know about that has been prepared, or will be prepared, directly related to this proposal:

GEOTECHNICAL REPORT, WETLAND REPORT.

9. Do you know whether applications are pending for governmental approvals of other proposals directly affecting the property covered by your proposal? If yes, explain:

NO

10. List any government approvals or permits that will be needed for your proposal, if known:

CRITICAL AREA REVIEW, BUILDING PERMIT, TRADE PERMITS

11. Give brief, complete description of your proposal, including the proposed uses and the size of the project and site. There are several questions later in this checklist that ask you to describe certain aspects of your proposal. You do not need to repeat those answers on this page. (Lead agencies may modify this form to include additional specific information on project description.)

CONSTRUCTION OF NEW SINGLE FAMILY DWELLING, ACCESSORY STRUCTURE GARAGE AND ASSOCIATED SITE IMPROVEMENTS. SITE IS 37,350 SF. PROPOSED DWELLING IS 3 STORY OVER BASEMENT. DWELLING IS 5634 SF, GARAGE IS 518 SF. SITE IMPROVEMENTS INCLUDE AT GRADE PATIOS, AND VEHICULAR ACCESS.

12. Location of the proposal. Give sufficient information for a person to understand the precise location of your proposed project, including a street address, if any, and section, township, and range, if known. If a proposal would occur over a range of area, provide the range or boundaries of the site(s). Provide a legal description, site plan, vicinity map, and topographic map, if reasonably available. While you should submit any plans required by the agency, you are not required to duplicate maps or detailed plans submitted with any permit applications related to this checklist.

5236 W MERCER WAY.

LOT 4A OF THE REVISED MILLS LOT LINE REVISION. PORTION OF : NW 1/4, SW 1/4, NW 1/4. SECTION 19, T, 24N, R S E W M

B. ENVIRONMENTAL ELEMENTS

1. Earth

a. General description of the site (check one):

Flat Rolling Hilly Steep slopes Mountainous Other

b. What is the steepest slope on the site (approximate percent slope)?

+/-58% AT FAR WEST SIDE OF SITE

c. What general types of soils are found on the site (for example, clay, sand, gravel, peat, muck)? If you know the classification of agricultural soils, specify them and note any agricultural land of long-term commercial significance and whether the proposal results in removing any of these soils.

VASHON ADVANCE OUTWASH AND LAWTON CLAY. GEOTECH REPORT PROVIDED

d. Are there surface indications or history of unstable soils in the immediate vicinity? If so, describe.

NO EVIDENCE OF SLOPE INSTABILITY

e. Describe the purpose, type, total area, and approximate quantities and total affected area of any filling, excavation, and grading proposed. Indicate source of fill.

EXCAVATION FOR DWELLING AND SITE IMPROVEMENTS OCCURED ON SITE UNDER PREVIOUS PERMIT. TOTALS WERE 3200 CY OF EXCAVATION (COMPLETE) AND 50 CY OF FILL. APPROXIMATE AREA 6400 SF FOR DWELLING, DRVIEWAY AND PATIOS.

f. Could erosion occur as a result of clearing, construction, or use? If so, generally describe.

NO

g. About what percent of the site will be covered with impervious surfaces after project construction (for example, asphalt or buildings)?

APROXIMATELY 6%

h. Proposed measures to reduce or control erosion, or other impacts to the earth, if any:

CONSTRUCTION WILL MEET OR EXCEED EROSION CONTROL MEASURES AS REQUIRED BY THE CITY OF MERCER ISLAND.

2. Air

-
- a. What types of emissions to the air would result from the proposal (i.e., dust, automobile, odors, and industrial wood smoke) during construction, operation, and maintenance when the project is completed? If any, generally describe and give approximate quantities if known.

CONSTRUCTION EMISSIONS WILL MAINLY BE FROM VEHICLES. POST CONSTRUCTION EMISSIONS TYPICAL OF SINGLE FAMILY DEVELOPMENTS CAN BE ANTICIPATED.

- b. Are there any off-site sources of emissions or odor that may affect your proposal? If so, generally describe.

NO

- c. Proposed measures to reduce or control emissions or other impacts to air, if any:

CONSTRUCTION WILL UTILIZE ENERGY EFFICIENT SYSTEMS TO REDUCE EMISSIONS.

3. Water

- a. Surface:

- i. Is there any surface water body on or in the immediate vicinity of the site (including year-round and seasonal streams, saltwater, lakes, ponds, wetlands)? If yes, describe type and provide names. If appropriate, state what stream or river it flows into.

YES. TYPE Ns STREAM AND CATEGORY IV WETLAND. SEASONAL STREAM AND WETLAND DRAIN TO LAKE WASHINGTON

- ii. Will the project require any work over, in, or adjacent to (within 200 feet) the described waters? If yes, please describe and attach available plans.

YES, WORK WILL OCCUR WITHIN 200' LIMITED TO EXCAVATION (COMPLETED) FOR THE DWELLING, GARAGE AND DRIVEWAY.

- iii. Estimate the amount of fill and dredge material that would be placed in or removed from surface water or wetlands and indicate the area of the site that would be affected. Indicate the source of fill material.

NONE

- iv. Will the proposal require surface water withdrawals or diversions? Give general description, purpose, and approximate quantities if known.

NO

- v. Does the proposal lie within a 100-year floodplain? If so, note location on the site plan.

NO

- vi. Does the proposal involve any discharges of waste materials to surface waters? If so, describe the type of waste and anticipated volume of discharge.

NO

b. Ground

- i. Will groundwater be withdrawn from a well for drinking water or other purposes? If so, give a general description of the well, proposed uses and approximate quantities withdrawn from the well? Will water be discharged to groundwater? Give general description, purpose, and approximate quantities if known.

NO

- ii. Describe waste material that will be discharged into the ground from septic tanks or other sources, if any (for example: Domestic sewage; industrial, [containing the following chemicals...]; agricultural; etc.). Describe the general size of the system, the number of such systems, the number of houses to be served (if applicable), or the number of animals or humans the system(s) are expected to serve.

NONE

c. Water runoff (including stormwater):

- i. Describe the source of runoff (including stormwater) and method of collection and disposal, if any (include quantities, if known). Where will this water flow? Will this water flow into other waters? If so, describe.

STORMWATER FOR THE DWELLING WILL BE DETAINED AND DISPERESED ON SITE.
STORMWATER FOR THE DRIVEWAY WILL BE DETAINED AND ROUTED TO MUNICIPAL
STORWATER SYSTEM.

- ii. Could waste materials enter ground or surface waters? If so, generally describe.

NO

- d. Proposed measures to reduce or control surface, ground, runoff water, and drainage pattern impacts, if any:

DETENTION SYSTEMS, OIL/WATER SEPARATOR FOR DRIVEWAY RUNOFF, ON SITE
DISPERSION AND PIPED (DRIVEWAY RUNOFF) TO MUNICIPAL STORMWATER
SYSTEM.

4. Plants

- a. Check types of vegetation found on the site
- Deciduous tree: Alder, Maple, Aspen, other
 - Evergreen tree: Fir, Cedar, Pine, other
 - Shrubs
 - Grass

- Pasture
- Crop or grain
- Wet soil plants: Cattail, buttercup, bulrush, skunk cabbage, other
- Water plants: Water lily, eelgrass, milfoil, other
- Other types of vegetation

b. What kind and amount of vegetation will be removed or altered?

WETLAND AREA WILL BE RESTORED. 16,631 SF

c. List threatened or endangered species known to be on or near the site.

NONE KNOWN

d. Proposed landscaping, use of native plants, or other measures to preserve or enhance vegetation on the site, if any:

EXTENSIVE RESTORATION WILL ENHANCE VEGETATION. SEE WETLAND MITIGATION PANS FOR TREES AND PLANTS PROPOSED.

e. List all noxious weeds and invasive species known to be on or near the site.

ENGLISH IVY

5. Animals

a. State any birds and animals which have been observed on or near the site or are known to be on or near the site. Examples include:

Birds: hawk, heron, eagle, songbirds, other:

Mammals: deer, bear, elk, beaver, other:

Fish: bass, salmon, trout, herring, shellfish, other:

SONGBIRDS AND RODENTS HAVE BEEN OBSERVED

b. List any threatened or endangered species known to be on or near the site.

NONE KNOWN

c. Is the site part of a migration route? If so, explain.

NO

d. Proposed measure to preserve or enhance wildlife, if any:

REMOVE INVASIVE SPECIES AND RESTORE WETLAND WITH NEW TREES AND VEGETATION. MANAGE AND TREAT, WHERE APPLICABLE, STORM WATER RUNOFF.

e. List any invasive animal species known to be on or near the site.

NONE KNOWN

6. Energy and natural resources

a. What kinds of energy (electric, natural gas, oil, wood stove, solar) will be used to meet the completed project's energy needs? Describe whether it will be used for heating, manufacturing, etc.

PROJECT WILL UTILIZE ELECTRICITY AND NATURAL GAS FOR HEATING, COOLING AND COOKING.

b. Would your project affect the potential use of solar energy by adjacent properties? If so, generally describe.

NO

c. What kinds of energy conservation features are included in the plans of this proposal? List other proposed measures to reduce or control energy impacts, if any:

PROPOSAL WILL USE ENERGY EFFICIENT APPLIANCES AND HEATING METHODS AND WILL MEET OR EXCEED ENERGY CODE REQUIREMENTS.

7. Environmental health

a. Are there any environmental health hazards, including exposure to toxic chemicals, risk of fire and explosion, spill, or hazardous waste that could occur as a result of this proposal? If so, describe.

CONSTRUCTION WILL HAVE TYPICAL RISKS ASSOCIATED WITH THIS TYPE OF DEVELOPMENT.

i. Describe any known or possible contamination at the site from present or past uses.

NONE KNOWN.

ii. Describe existing hazardous chemicals/conditions that might affect project development and design. This includes underground hazardous liquid and gas transmission pipelines located within the project area and in the vicinity.

NONE KNOWN.

iii. Describe any toxic or hazardous chemicals that might be stored, used, or produced during the project's development or construction, or at any time during the operating life of the project.

NO HAZARD OR TOXIC CHEMICALS ARE ANTICIPATED DURING CONSTRUCTION OR DURING THE OPERATING LIFE OF THE PROJECT.

iv. Describe special emergency services that might be required.

THOSE TYPICAL OF CONSTRUCTION AND SINGLE FAMILY DWELLINGS. FIRE AND EMERGENCY SERVICES.

v. Proposed measures to reduce or control environmental health hazards, if any:

CONSTRUCTION WILL UTILIZE MATERIALS THAT ARE LOW IN TOXICITY AND VOC'S.

b. Noise

i. What types of noise exist in the area which may affect your project (for example: traffic, equipment, operation, other)?

NONE

ii. What types and levels of noise would be created by or associated with the project on a short-term or a long-term basis (for example: traffic, construction, operation, other)? Indicate what hours noise would come from the site.

CONSTRUCTION WILL CREATE NOISE ON A SHORT TERM BASIS. CONSTRUCTION HOURS WILL BE AS ALLOWED BY CITY OF MERCER ISLAND. NO EXCESSIVE NOISE IS ANTICIPATED LONG TERM.

iii. Proposed measures to reduce or control noise impacts, if any:

CONSTRUCTION WILL OCCUR WITHIN HOURS ALLOWED BY CITY OF MERCER ISLAND.

8. Land and shoreline use

a. What is the current use of the site and adjacent properties? Will the proposal affect current land uses on nearby or adjacent properties? If so, describe.

ALL ADJACENT PROPERTIES ARE ZONED FOR SINGLE FAMILY RESIDENTIAL USE. THIS PROPOSAL, SINGLE FAMILY DWELLING DOES NOT AFFECT CURRENT LAND USES ON ADJACENT PROPERTIES.

b. Has the project site been used as working farmlands or working forest lands? If so, describe. How much agricultural or forest land of long-term commercial significance will be converted to other uses as a result of the proposal, if any? If resource lands have not been designated, how many acres in farmland or forest land tax status will be converted to nonfarm or nonforest use?

NO

c. Describe any structures on the site.

SITE IS VACANT EXCEPT FOR SHORING INSTALLED UNDER PREVIOUS PERMIT.

d. Will any structures be demolished? If so, what?

NO

e. What is the current zoning classification of the site?

R15

f. What is the current comprehensive plan designation of the site?

SINGLE FAMILY

g. If applicable, what is the current shoreline master program designation of the site?

NONE

h. Has any part of the site been classified as an "environmentally sensitive" area? If so, specify.

YES, THE SITE CONTAINS A STREAM CLASSIFIED AS N_s, A TYPE IV WETLAND, POTENTIAL SLIDE, EROSION HAZARD AND STEEP SLOPE.

i. Approximately how many people would reside or work in the completed project?

FOUR TO SIX

j. Approximately how many people would the completed project displace?

ZERO

k. Proposed measures to avoid or reduce displacement impacts, if any:

NOT APPLICABLE

l. Proposed measures to ensure the proposal is compatible with existing and projected land uses and plans, if any:

PROJECT CONFORMS TO ZONING REQUIREMENTS.

9. Housing

a. Approximately how many units would be provided, if any? Indicate whether high, middle, or low-income housing.

ONE SINGLE FAMILY DWELLING, HIGH INCOME HOUSING

- b. Approximately how many units, if any, would be eliminated? Indicate whether high, middle, or low-income housing.

ZERO

- c. Proposed measures to reduce or control housing impacts, if any:

NOT APPLICABLE

10. Aesthetics

- a. What is the tallest height of any proposed structure(s), not including antennas? What is the principal exterior material(s) proposed?

APPROXIMATELY 33' FROM MAIN LEVEL ELEVATION TO RIDGE. EXTERIOR MATERIALS ARE PAINTED WOOD, CEMENTITIOUS PANEL, ASPHALT SHINGLES, METAL GUARDRAILS AND CONCRETE

- b. What views in the immediate vicinity would be altered or obstructed?

NONE

- c. Proposed measures to reduce or control aesthetics impacts, if any:

PROJECT WILL UTILIZE MATERIALS AND STYLES COMPATIBLE WITH SINGLE FAMILY RESIDENTIAL DEVELOPMENT.

11. Light and glare

- a. What type of light or glare will the proposal produce? What time of day would it mainly occur?

EVENTUAL PROJECT WILL CREATE LIGHT FROM BOTH INTERNAL AND EXTERNAL FIXTURES AND WOULD OCCUR FROM DUSK AND BEFORE DAWN

- b. Could light or glare from the finished project be a safety hazard or interfere with views?

NO

- c. What existing off-site sources of light or glare may affect your proposal?

NONE

- d. Proposed measures to reduce or control light and glare impacts, if any:

NOT APPLICABLE

12. Recreation

- a. What designated and informal recreational opportunities are in the immediate vicinity?

BOTH ISLAND CREST PARK AND GROVELAND BEACH PARK ARE APPROXIMATELY 1/3 OF A MILE FROM THE SITE.

b. Would the proposed project displace any existing recreational uses? If so, describe.

NO

c. Proposed measures to reduce or control impacts on recreation, including recreation opportunities to be provided by the project or applicant, if any:

PROJECT WILL INCREASE TAX BASE PROVIDING ADDITIONAL FUNDING FOR RECREATIONAL OPPORTUNITIES.

13. Historic and cultural preservation

a. Are there any buildings, structures, or sites, located on or near the site that are over 45 years old listed in or eligible for listing in national, state, or local preservation registers? If so, specifically describe.

NO

b. Are there any landmarks, features, or other evidence of Indian or historic use or occupation? This may include human burials or old cemeteries. Are there any material evidence, artifacts, or areas of cultural importance on or near the site? Please list any professional studies conducted at the site to identify such resources.

NO

c. Describe the methods used to assess the potential impacts to cultural and historic resources on or near the project site. Examples include consultation with tribes and the department of archeology and historic preservation, archaeological surveys, historic maps, GIS data, etc.

ASSESSMENT WAS LIMITED TO AVAILABLE DATA. SEPCIFICALLY GIS SYSTEMS. SITE HAS BEEN EXTENSIVELY EXCAVATED UNDER PREVIOUS PERMIT.

d. Proposed measures to avoid, minimize, or compensate for loss, changes to, and disturbance to resources. Please include plans for the above and any permits that may be required.

PROJEC TWILL NOT IMPACT RESOURCES

14. Transportation

a. Identify public streets and highways serving the site or affected geographic area and describe proposed access to the existing street system. Show on site plans, if any.

SITE IS ACCESSED VIA W MERCER WAY. AN ON-SITE DRIVEWAY IS PROPOSED FROM W MERCER WAY TO THE GARAGE.

- b. Is the site or affected geographic area currently served by public transit? If so, generally describe. If not, what is the approximate distance to the nearest transit stop?

NO, NEAREST TRANSIT IS LOCATED AT ISLAND CREST WAY

- c. How many additional parking spaces would the completed project or nonproject proposal have? How many would the project or proposal eliminate?

TWO, NO STALLS ELIMINATED

- d. Will the proposal require any new or improvements to existing roads, streets, pedestrian, bicycle or state transportation facilities, not including driveways? If so, generally describe (indicate whether public or private).

NO

- e. Will the project or proposal use (or occur in the immediate vicinity of) water, rail, or air transportation? If so, generally describe.

NO

- f. How many vehicular trips per day would be generated by the completed project or proposal? If known, indicate when peak volumes would occur and what percentage of the volume would be trucks (such as commercial and non-passenger vehicles). What data or transportation models were used to make these estimates?

THE ITE TRIP GENERATOR ESTIMATES SINGLE FAMILY DEVELOPMENTS
CREATE 10 VEHICLE TRIPS DAILY.

- g. Will the proposal interfere with, affect or be affected by the movement of agricultural and forest products on roads or streets in the area? If so, generally describe.

NO

- h. Proposed measures to reduce or control transportation impacts, if any:

NO MEASURES ANTICIPATED

15. Public services

- a. Would the project result in an increased need for public services (for example; fire protection, police protection, health care, schools, other)? If so, generally describe.

YES PROJECT WILL INCREASE NEED FOR PUBLIC SERVICES. SPECIFICALLY
FIRE, POLICE, HEALTH CARE AND SCHOOLS.

- b. Proposed measures to reduce or control direct impacts on public services, if any.

INCREASED TAX BASE OF PROJECT WILL OFFSET INCREASED USE OF PUBLIC SERVICES.

16. Utilities

a. Check utilities currently available at the site:

Electricity Natural Gas Water Refuse Service
Telephone Sanitary sewer Septic system Other

b. Describe the utilities that are proposed for the project, the utility providing the service, and the general construction activities on the site or in the immediate vicinity which might be needed.

ELECTRICITY, NATURAL GAS, WATER, TELEPHONE, SANITARY SEWER, STORM SEWER, REFUSE SERVICE

C. SIGNATURE

I certify (or declare) under penalty of perjury under the laws of the State of Washington that the answers to the attached SEPA Checklist are true and complete to the best of my knowledge. I understand that the lead agency is relying on them to make its decision.

Signature: _____

Date Submitted: 12/12/2024

SEPA RULES

SUPPLEMENTAL SHEET FOR NONPROJECT ACTIONS

(do not use this sheet for project actions)

Because these questions are very general, it may be helpful to read them in conjunction with the list of the elements of the environment.

When answering these questions, be aware of the extent the proposal, or the types of activities likely to result from the proposal, would affect the item at a greater intensity or at a faster rate than if the proposal were not implemented. Respond briefly and in general terms.

1. How would the proposal be likely to increase discharge to water; emissions to air; productions, storage, or release of toxic or hazardous substances; or production of noise?

Proposed measures to avoid or reduce increases are:

2. How would the proposal be likely to affect plants, animals, fish, or marine life?

Proposed measures to protect or conserve plants, animals, fish, or marine life are:

3. How would the proposal be likely to deplete energy or natural resources?

Proposed measures to protect or conserve energy and natural resources are:

4. How would the proposal be likely to use or affect environmentally sensitive areas or areas designated (or eligible or under study) for governmental protection; such as parks, wilderness, wild and scenic rivers, threatened or endangered species habitat, historic or cultural sites, wetlands, floodplains, or prime farmlands?

Proposed measures to protect such resources or to avoid or reduce impacts are:

5. How would the proposal be likely to affect land and shoreline use, including whether it would allow or encourage land or shoreline uses incompatible with existing plans?

Proposed measures to avoid or reduce shoreline and land use impacts are:

6. How would the proposal be likely to increase demands on transportation or public services and utilities?

Proposed measures to reduce or respond to such demand(s) are:

7. Identify, if possible, whether the proposal may conflict with local, state, or federal laws or requirements for the protection of the environment.
