CRITICAL AREA REVIEW 1

A Critical Area Review 1 is a land use approval that allows one or more of the following actions:

1. Activities listed as modifications in [MICC 19.07.130](#), Modifications;
2. Verification of the presence or absence of a critical area; or
3. Verification of the delineation (location) and/or type of wetland or watercourse.

Critical Area Review 1 approvals provide a simplified review process for smaller scopes of work requiring less detailed review than Critical Area Review 2 approvals.

REVIEW PROCESS – TYPE I LAND USE REVIEW

Type I reviews are based on clear, objective, and nondiscretionary standards or standards that require the application of professional expertise on technical issues. Type I reviews do not require a pre-application meeting, letter of complete application, public notification, notice of application mailing and posting, public comment periods, public hearing, or notice of decision. The decision is made by the Code Official.

PRE-APPLICATION MEETING– Recommended, but not required.

A Pre-Application Meeting is used to determine whether a land use project is ready for review, to review the land use application process, and to provide an opportunity for initial feedback on a proposed application. Some land use applications require a pre-application meeting – in particular: short and long subdivisions, lot line revisions, shoreline permits, variances, and critical area determinations. The City strongly recommends that all land use applications use the pre-application process to allow for feedback by City staff.

For more information on the Pre-Application Meeting process, please refer to the [Pre-Application Meeting Request Form](#).

FEES

Critical Area Review Type 1 - Refer to the City of Mercer Island [Fee Schedule](#) for current permit fees.
