Re: Ackley Residence Remodel
9603 SE 61st Place
Mercer Island WA 98040

To the neighbor on SE 61st Place, Mercer Island:

Lisa Losh:

1. Construction vehicles will park either on property or off site. There will be no parking along 61st Place.
2. Gallagher will Video and take pictures of SE 61st place prior to construction activities. Any damage incurred by Gallagher will be repaired as part of construction expenses.
3. Road blockages will be communicated to the extent possible with neighbors who share email with us for notifications. These will be very temporary and any blockages will be able to move for emergency service requirements.
4. Mercer Island requires a TESC plan that will be inspected and maintained during construction activities. The contractor is not allowed any silt run-off from site in any way or form. In the case of dirt on road, it will be swept immediately.

Sincerely,

Jay Nygaard
