**ACCESSORY DWELLING UNIT**

An accessory dwelling unit (ADU) is a habitable dwelling unit added to, created within, or detached from a single-family dwelling that provides basic requirements for living, sleeping, eating, cooking, and sanitation. Either the principal dwelling unit, or the ADU must be occupied by the property owner. Refer to [Mercer Island City Code \(MICC\) 19.02.030](#) for ADU requirements and exceptions.

**REVIEW PROCESS – TYPE II LAND USE REVIEW**

Type II reviews are based on clear, objective, and nondiscretionary standards or standards that require the application of professional expertise on technical issues. Type II reviews require public notification of application, and the decision is made by the Code Official. Type II reviews do not require a pre-application meeting, letter of complete application, notice of application mailing and posting, public comment period, public hearing, or notice of decision.

**PRE-APPLICATION MEETING – Recommended, but not required.**

A Pre-Application Meeting is used to determine whether a land use project is ready for review, to review the land use application process, and to provide an opportunity for initial feedback on a proposed application. Some land use applications require a pre-application meeting – in particular: short and long subdivisions, lot line revisions, shoreline permits, variances, and critical area determinations. The City strongly recommends that all land use applications use the pre-application process to allow for feedback by City staff. For more information on the Pre-Application Meeting process, please refer to the [Pre-Application Meeting Request Form](#).
