## NOTICE OF APPEAL HEARING

---

**NOTICE IS HEREBY GIVEN** that the City of Mercer Island Hearing Examiner will conduct an Open Record Hearing for the appeal of a Land Use action, which will convene at 10:00 AM on Tuesday, September 24, 2024, via the Zoom electronic platform.

**File No:** Appeal Number APL22-003; Building Permit No. 2104-111 and 1909-076

**Description:** Appellant Pearl Ren filed an appeal regarding the Stop Work Order at 7422 E Mercer Way, Mercer Island, WA 98040 related to Building Permit 2104-111 and Demolition Permit 1909-076.

**Person(s) Responsible/  
Property Owners:** Pearl Ren, Owner

**Location of Subject Property:** 7422 E. Mercer Way, Mercer Island, WA 98040

**Appeal Documents:** <https://mieplan.mercergov.org/public/APL22-003>  
Documents will continually be added to the appeal file directory as they are submitted within the appeal proceeding.

**Scope of the Appeal:** Appellant alleges the following assignments of error:

- 1) The Decision refers to a condition of permit #1909-076 requiring “Contractor to verify that no existing framing to remain relies on the components to be removed.” The evidence at hearing will show the contractor performed this verification.
- 2) The statement that “the span conditions of at least two existing and remaining pile caps were modified during the demolition of the damaged boathouse” is incorrect. The evidence at hearing will show that the demolition did not modify the span conditions of the pile caps for the Shared Dock. More specifically, on information and belief, the Decision is based on the mistaken assumption that the Shared Dock was constructed so that the dock caps shown in the photograph below rested on and relied for structural support on the Boathouse cap/pilings also shown in the photograph below. The evidence at hearing will show this assumption is not correct.
- 3) The Decision requires the Owner to “[r]esolve discovery of framing condition with a revision to 2104-111.” This corrective action should be modified to allow the Owner to address the Decision by (1) demonstrating that the demolition work did not modify the span conditions of the pile

caps for the Shared Dock; or, in the alternative (2) demonstrating that the Shared Dock does not require structural support from any of the components of the Boathouse, including its caps or pilings; or, in the alternative (3) submitting a separate permit application for any work deemed necessary following resolution of this appeal, since permit #2104-111 relates only to the Boathouse, but work performed in response to the Decision would be to the Shared Dock.
