Dear Ms Sommargren and Planning Committee,

We believe the currently chosen location to install the water meter data pole is flawed needs to be relocated. There are numerous trees tightly located with many limbs intruding periodically on the many wires crossing through this area. This will inevitably create the need for continual (and costly) maintenance.

Please check out what may be the best or better location at the north corner of Roanoke Park (West Mercer/North Mercer & 70th ave SE). On this corner, the pole and meter reader will still service all homes yet will have minimum maintenance requirements due to the unobstructed area around the water meter data pole.

Respectively Yours, Jim A. Zorn, C.Joy Zorn
