

CAO22-018: 2048 84th Ave SE, Mercer Island, WA

Michele Lorilla <michele.lorilla@mercergov.org>

Wed 5/3/2023 7:06 AM

To: Molly McGuire <molly.mcguire@mercerisland.gov>

Good morning Molly,

I looked at the SUB2 for this permit and only have an outstanding SOR (geotech reviewed 60% submittal and not the final) and pin pile testing and capacity issue (which could be deferred to building permit review).

As for the issue of the sheet pile wall and rock revetment, I am not qualified to review the wave action, scour, runup information provided by Blue Coast Engineering, but on the face of things, given that this is protecting an ADA accessible concrete paved pathway the design looks reasonable to me.

I have published my comments and do not plan to email the applicant notifying them of my comments as is customary for the CAO permits.

I plan to charge 2.5 hr in Trakit for my review time.

Michele Lorilla, P.E.

Geotechnical Peer Reviewer
