Mercer Island, Washington 98040

**Subject: Plan Review  
Sub-Basin 25B.2 Watercourse Stabilization  
Mercer Island, Washington**

Dear Elayne Grueber,

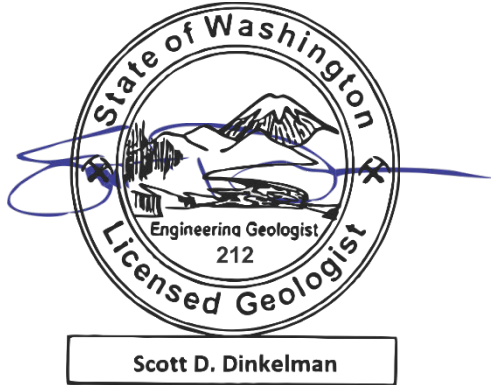

As requested, we reviewed the following documents:

- Gray and Osborne, Inc., 60 Percent Sub-basin 25B.2 Watercourse Stabilization Plan Set, dated November 2023.
- PanGEO, Inc., Geotechnical Report, dated March 14, 2024.

Based on our review, it is our opinion that the geotechnical elements of the project design are consistent with the recommendations and intent presented in the referenced geotechnical report prepared for the project.

We trust this information meets your current needs. If you have any questions, please let us know.

Sincerely,

Scott D. Dinkelman, LEG  
Principal Engineering Geologist
