To: Molly McGuire <molly.mcguire@mercerisland.gov>

Molly,

My wife and I are Mercer Island Resident, I since 1960 and my wife since 1955. For the last 35 years we have been living at 4568 East Mercer Way. We experience the massive traffic and pedestrian traffic increase with the additional developments at the JCC. The traffic backup and pedestrian crossings are very dangerous. People pull out from the JCC without regard to cross traffic and the pedestrians cross at night with dark clothes never using the flags or even looking. When it is raining and dark it is often not possible to see pedestrians in dark clothing.

All this being said, please make note that we are not in favor of additional development at the JCC or the Temple. This is a residential neighborhood...

From a safety standpoint, this is a bad idea.

Thank you,

Jeff Davis
