RE: Public Notice of Application

File #SHL25-027K, SHLF25-028, CAO25-019 , DEV25-007 & SEP25-025

I am a resident of Covenant Shores and would like to record my opposition to the style of proposed new structure due to the fact that a flat roof does not seem to be appropriate for our Seattle rainy weather.

In addition, I would be opposed to the loss of any mature trees near the current structure unless absolutely necessary. I understand the weeping willow tree is a special species. I would think the city would also want to retain as many mature trees as possible

Thank you for consideration of my thoughts on this subject

Sincerely
