Dear Ryan,

As President of the Residents Association here at Covenant Shores I have the dubious opportunity to try to keep residents on track for events that are happening here. Right now we have a high level of concern about the permit application that will cease public written comment on Wednesday.

The big question is what does this permit actually cover? Is it the Shoreline Mgt Act piece, plus the wetland, and the building size? Or, does it get into finer details of building design, materials, landscaping, plus?? Or is there another opportunity for comment later?

Any quick information you can give me would be very helpful?
