

# SEPA<sup>1</sup> Environmental Checklist

---

## Purpose of checklist

Governmental agencies use this checklist to help determine whether the environmental impacts of your proposal are significant. This information is also helpful to determine if available avoidance, minimization, or compensatory mitigation measures will address the probable significant impacts or if an environmental impact statement will be prepared to further analyze the proposal.

## Instructions for applicants

This environmental checklist asks you to describe some basic information about your proposal. Please answer each question accurately and carefully, to the best of your knowledge. You may need to consult with an agency specialist or private consultant for some questions. **You may use “not applicable” or “does not apply” only when you can explain why it does not apply and not when the answer is unknown.** You may also attach or incorporate by reference additional studies reports. Complete and accurate answers to these questions often avoid delays with the SEPA process as well as later in the decision-making process.

The checklist questions apply to **all parts of your proposal**, even if you plan to do them over a period of time or on different parcels of land. Attach any additional information that will help describe your proposal or its environmental effects. The agency to which you submit this checklist may ask you to explain your answers or provide additional information reasonably related to determining if there may be significant adverse impact.

## Instructions for lead agencies

Please adjust the format of this template as needed. Additional information may be necessary to evaluate the existing environment, all interrelated aspects of the proposal and an analysis of adverse impacts. The checklist is considered the first but not necessarily the only source of information needed to make an adequate threshold determination. Once a threshold determination is made, the lead agency is responsible for the completeness and accuracy of the checklist and other supporting documents.

## Use of checklist for nonproject proposals

For nonproject proposals (such as ordinances, regulations, plans and programs), complete the applicable parts of sections A and B, plus the Supplemental Sheet for Nonproject Actions (Part D). Please completely answer all questions that apply and note that the words "project," "applicant," and "property or site" should be read as "proposal," "proponent," and "affected geographic area," respectively. The lead agency may exclude (for non-projects) questions in “Part B: Environmental Elements” that do not contribute meaningfully to the analysis of the proposal.

---

## A. Background

[Find help answering background questions](#)<sup>2</sup>

**1. Name of proposed project, if applicable:**

Cella Residence

**2. Name of applicant:**

Cella, Jack

**3. Address and phone number of applicant and contact person:**

4516 Ferncroft Rd, Mercer Island, WA 98040 | 206-236-1700

**4. Date checklist prepared:**

01-14-2026

**5. Agency requesting checklist:**

Mercer Island

**6. Proposed timing of schedule (including phasing, if applicable):**

Timing is contingent on work windows and issuance of permits. No phasing is proposed.

**7. Do you have any plans for future additions, expansion, or further activity related to or connected with this proposal? If yes, explain.**

No additional plans, expansion, or further activity is proposed.

**8. List any environmental information you know about that has been prepared, or will be prepared, directly related to this proposal.**

Unknown.

**9. Do you know whether applications are pending for governmental approvals of other proposals directly affecting the property covered by your proposal? If yes, explain.**

Unknown.

**10. List any government approvals or permits that will be needed for your proposal, if known.**

Unknown.

**11. Give brief, complete description of your proposal, including the proposed uses and the size of the project and site. There are several questions later in this checklist that ask you to describe certain aspects of your proposal. You do not need to repeat those answers on this page. (Lead agencies may modify this form to include additional specific information on project description.)**

We propose to repair (14) wood piles and (2) wooden mooring piles, remove the existing boathouse, repair the existing dock with new grated decking, remove the existing wooden

---

<sup>2</sup> <https://ecology.wa.gov/Regulations-Permits/SEPA/Environmental-review/SEPA-guidance/SEPA-checklist-guidance/SEPA-Checklist-Section-A-Background>

decking and boat ramp, install gravel to replace the decking over land, and install spawning gravel to replace the boat ramp in-water.

- 12. Location of the proposal. Give sufficient information for a person to understand the precise location of your proposed project, including a street address, if any, and section, township, and range, if known. If a proposal would occur over a range of area, provide the range or boundaries of the site(s). Provide a legal description, site plan, vicinity map, and topographic map, if reasonably available. While you should submit any plans required by the agency, you are not required to duplicate maps or detailed plans submitted with any permit applications related to this checklist.**

Project is located at: 4516 Ferncroft Rd, Seattle, WA 98040, Parcel 004610-0503. Section, township, and range are SE-18-24-5. Latitude and Longitude is 47.564938, -122.20853.

## B.Environmental Elements

### 1. Earth

[Find help answering earth questions](#)<sup>3</sup>

- a. **General description of the site:**

Circle or highlight one: Flat, rolling, hilly, steep slopes, mountainous, other:

- b. **What is the steepest slope on the site (approximate percent slope)?**

Unknown/Site is generally flat

- c. **What general types of soils are found on the site (for example, clay, sand, gravel, peat, muck)? If you know the classification of agricultural soils, specify them, and note any agricultural land of long-term commercial significance and whether the proposal results in removing any of these soils.**

Glacial till, sandstone, siltstone, mudstone (assumed).

- d. **Are there surface indications or history of unstable soils in the immediate vicinity? If so, describe.**

NA/Unknown.

- e. **Describe the purpose, type, total area, and approximate quantities and total affected area of any filling, excavation, and grading proposed. Indicate source of fill.**

The existing boat ramp and associated overland wooden decking is proposed to be removed and replaced with gravel. Overland, 4.7 cubic yards of gravel will be installed and graded to a natural slope to the shore to replace said decking. In-water, 2 cubic yards of spawning gravel will be installed and graded to a natural slope to replace the existing boat ramp. Gravel is sourced from Salmon Bay Sand and Gravel.

---

<sup>3</sup> <https://ecology.wa.gov/regulations-permits/sepa/environmental-review/sepa-guidance/sepa-checklist-guidance/sepa-checklist-section-b-environmental-elements/environmental-elements-earth>

- f. **Could erosion occur because of clearing, construction, or use? If so, generally describe.**

Some erosion could occur in the removal of the overland decking, however it will be replaced and regraded to a naturally sloped shoreline.

- g. **About what percent of the site will be covered with impervious surfaces after project construction (for example, asphalt or buildings)?**

NA/No impervious surface work is proposed.

- h. **Proposed measures to reduce or control erosion, or other impacts to the earth, if any.**

A floating containment boom will surround the work area during pile removal, repair, and associated dock repair. All dock and pile work will be performed from a barge which contains a perimeter containment sock to keep silt and debris from re-entering the lake.

## 2. Air

[Find help answering air questions](#)<sup>4</sup>

- a. **What types of emissions to the air would result from the proposal during construction, operation, and maintenance when the project is completed? If any, generally describe and give approximate quantities if known.**

During construction, there will be emissions from heavy equipment but will be temporary (lasting only the duration of project). Upon project completion, there will be no long-term emissions.

- b. **Are there any off-site sources of emissions or odor that may affect your proposal? If so, generally describe.**

NA/None.

- c. **Proposed measures to reduce or control emissions or other impacts to air, if any:**

NA/None.

## 3. Water

[Find help answering water questions](#)<sup>5</sup>

- a. **Surface:**

[Find help answering surface water questions](#)<sup>6</sup>

---

<sup>4</sup> <https://ecology.wa.gov/Regulations-Permits/SEPA/Environmental-review/SEPA-guidance/SEPA-checklist-guidance/SEPA-Checklist-Section-B-Environmental-elements/Environmental-elements-Air>

<sup>5</sup> <https://ecology.wa.gov/Regulations-Permits/SEPA/Environmental-review/SEPA-guidance/SEPA-checklist-guidance/SEPA-Checklist-Section-B-Environmental-elements/Environmental-elements-3-Water>

<sup>6</sup> <https://ecology.wa.gov/Regulations-Permits/SEPA/Environmental-review/SEPA-guidance/SEPA-checklist-guidance/SEPA-Checklist-Section-B-Environmental-elements/Environmental-elements-3-Water/Environmental-elements-Surface-water>

- 1. Is there any surface water body on or in the immediate vicinity of the site (including year-round and seasonal streams, saltwater, lakes, ponds, wetlands)? If yes, describe type and provide names. If appropriate, state what stream or river it flows into.**

Yes, property is adjacent to aquatic shoreline of Lake Washington (freshwater lake; flows into Puget Sound).

- 2. Will the project require any work over, in, or adjacent to (within 200 feet) the described waters? If yes, please describe and attach available plans.**

Yes, all work proposed will be waterward of the OHWM.

- 3. Estimate the amount of fill and dredge material that would be placed in or removed from surface water or wetlands and indicate the area of the site that would be affected. Indicate the source of fill material.**

There will be 2 cubic yards of spawning gravel fill put in to replace the existing boat ramp.

- 4. Will the proposal require surface water withdrawals or diversions? Give a general description, purpose, and approximate quantities if known.**

NA/The proposal does not require surface water withdrawals or diversions.

- 5. Does the proposal lie within a 100-year floodplain? If so, note location on the site plan.**

NA/Unknown.

- 6. Does the proposal involve any discharges of waste materials to surface waters? If so, describe the type of waste and anticipated volume of discharge.**

NA/The proposal does not involve any discharges of waste to surface waters.

**b. Ground:**

[Find help answering ground water questions](#)<sup>7</sup>

- 1. Will groundwater be withdrawn from a well for drinking water or other purposes? If so, give a general description of the well, proposed uses and approximate quantities withdrawn from the well. Will water be discharged to groundwater? Give a general description, purpose, and approximate quantities if known.**

NA/No groundwater withdrawal of any type is proposed.

- 2. Describe waste material that will be discharged into the ground from septic tanks or other sources, if any (domestic sewage; industrial, containing the following chemicals...; agricultural; etc.). Describe the general size of the system, the number of such systems, the number of houses to be served (if applicable), or the number of animals or humans the system(s) are expected to serve.**

---

<sup>7</sup> <https://ecology.wa.gov/Regulations-Permits/SEPA/Environmental-review/SEPA-guidance/SEPA-checklist-guidance/SEPA-Checklist-Section-B-Environmental-elements/Environmental-elements-3-Water/Environmental-elements-Groundwater>

NA/No waste material will be discharged as a result of project actions.

**c. Water Runoff (including stormwater):**

- 1. Describe the source of runoff (including storm water) and method of collection and disposal, if any (include quantities, if known). Where will this water flow? Will this water flow into other waters? If so, describe.**

NA/No runoff water will be generated from project actions.

- 2. Could waste materials enter ground or surface waters? If so, generally describe.**

NA/No waste materials will enter ground or surface waters.

- 3. Does the proposal alter or otherwise affect drainage patterns in the vicinity of the site? If so, describe.**

NA/No, the proposal will not affect drainage patterns in the vicinity.

**d. Proposed measures to reduce or control surface, ground, and runoff water, and drainage pattern impacts, if any:**

NA/No proposed measures are proposed or necessary.

## 4. Plants

[Find help answering plants questions](#)

**a. Check the types of vegetation found on the site:**

- deciduous tree: alder, maple, aspen, other**
- evergreen tree: fir, cedar, pine, other**
- shrubs**
- grass**
- pasture**
- crop or grain**
- orchards, vineyards, or other permanent crops.**
- wet soil plants: cattail, buttercup, bullrush, skunk cabbage, other**
- water plants: water lily, eelgrass, milfoil, other**
- other types of vegetation**

**b. What kind and amount of vegetation will be removed or altered?**

NA/No existing vegetation will be removed altered.

**c. List threatened and endangered species known to be on or near the site.**

NA/No threatened or endangered species are known to be on or near the site.

**d. Proposed landscaping, use of native plants, or other measures to preserve or enhance vegetation on the site, if any.**

Additional mitigative plantings are proposed using only native plants on the approved mitigative planting list.

**e. List all noxious weeds and invasive species known to be on or near the site.**

Himalayan blackberry is present on the site, no other noxious weeds or invasive species are known to be on the site.

## 5. Animals

[Find help answering animal questions](#)<sup>8</sup>

**a. List any birds and other animals that have been observed on or near the site or are known to be on or near the site.**

Examples include:

- **Birds:** hawk, heron, eagle, songbirds, **other:** See list 5.b. below
- **Mammals:** deer, bear, elk, beaver, **other:** See list 5.b. below
- **Fish:** bass, salmon, trout, herring, shellfish, **other:** See list 5.b. below

**b. List any threatened and endangered species known to be on or near the site.**

- Bull Trout (*Salvelinus confluentus*)
- Salvelinus confluentus* (*Lynx canadensis*)
- Gray wolf (*Canis lupus*)
- Marbled murrelet (*Brachyramphus marmoratus*)
- Marsh Sandwort (*Arenaria paludicola*)
- Monarch butterfly (*Danaus plexippus*)
- North American wolverine (North American wolverine)
- Northern spotted owl (*Strix occidentalis caurina*)
- Showy stickseed (*Hackelia venusta*)
- Streaked Horned lark (*Eremophila alpestris strigata*)
- Taylor's Checkerspot (*Euphydryas editha taylori*)
- Wenatchee Mountain checkermallow (*Sidalcea oregana* var. *calva*)
- Whitepark pine (*Pinus albicaulis*)
- Yellow-billed Cuckoo (*Coccyzus americanus*)

**c. Is the site part of a migration route? If so, explain.**

Unknown.

**d. Proposed measures to preserve or enhance wildlife, if any.**

A water containment boom will be used to prevent sediment intrusion into adjacent water.

**e. List any invasive animal species known to be on or near the site.**

---

<sup>8</sup> <https://ecology.wa.gov/Regulations-Permits/SEPA/Environmental-review/SEPA-guidance/SEPA-checklist-guidance/SEPA-Checklist-Section-B-Environmental-elements/Environmental-elements-5-Animals>

Unknown.

## 6. Energy and natural resources

[Find help answering energy and natural resource questions](#)<sup>9</sup>

- a. **What kinds of energy (electric, natural gas, oil, wood stove, solar) will be used to meet the completed project's energy needs? Describe whether it will be used for heating, manufacturing, etc.**

NA/Scope of project does not include electrical work.

- b. **Would your project affect the potential use of solar energy by adjacent properties? If so, generally describe.**

NA/Scope of project does not include electrical work.

- c. **What kinds of energy conservation features are included in the plans of this proposal? List other proposed measures to reduce or control energy impacts, if any.**

NA/None proposed.

## 7. Environmental health

[Health Find help with answering environmental health questions](#)<sup>10</sup>

- a. **Are there any environmental health hazards, including exposure to toxic chemicals, risk of fire and explosion, spill, or hazardous waste, that could occur because of this proposal? If so, describe.**

NA/None proposed.

1. **Describe any known or possible contamination at the site from present or past uses.**

NA/Unknown.

2. **Describe existing hazardous chemicals/conditions that might affect project development and design. This includes underground hazardous liquid and gas transmission pipelines located within the project area and in the vicinity.**

NA/Unknown.

3. **Describe any toxic or hazardous chemicals that might be stored, used, or produced during the project's development or construction, or at any time during the operating life of the project.**

NA/No hazardous chemicals are anticipated.

4. **Describe special emergency services that might be required.**

---

<sup>9</sup> <https://ecology.wa.gov/Regulations-Permits/SEPA/Environmental-review/SEPA-guidance/SEPA-checklist-guidance/SEPA-Checklist-Section-B-Environmental-elements/Environmental-elements-6-Energy-natural-resou>

<sup>10</sup> <https://ecology.wa.gov/Regulations-Permits/SEPA/Environmental-review/SEPA-guidance/SEPA-checklist-guidance/SEPA-Checklist-Section-B-Environmental-elements/Environmental-elements-7-Environmental-health>

NA/No special emergency services will be required.

**5. Proposed measures to reduce or control environmental health hazards, if any.**

NA/Project should not create environmental health hazard(s).

**b. Noise**

**1. What types of noise exist in the area which may affect your project (for example: traffic, equipment, operation, other)?**

Existing types of noise would be consistent with widespread single family development. None of this noise will impact the project.

**2. What types and levels of noise would be created by or associated with the project on a short-term or a long-term basis (for example: traffic, construction, operation, other)? Indicate what hours noise would come from the site)?**

Short term noise associated with heavy machinery operation would result during construction/repair of dock, but will cease upon completion and not result in long term noise pollution.

**3. Proposed measures to reduce or control noise impacts, if any:**

Measures to reduce and control noise producing equipment include limiting their use to normal hours of operation set by the City.

## **8. Land and shoreline use**

[Find help answering land and shoreline use questions](#)<sup>11</sup>

**a. What is the current use of the site and adjacent properties? Will the proposal affect current land uses on nearby or adjacent properties? If so, describe.**

Single family residence is the current use of site and adjacent properties. The proposal will not impact current land uses on or nearby on adjacent properties.

**b. Has the project site been used as working farmlands or working forest lands? If so, describe. How much agricultural or forest land of long-term commercial significance will be converted to other uses because of the proposal, if any? If resource lands have not been designated, how many acres in farmland or forest land tax status will be converted to nonfarm or nonforest use?**

NA/This project will not affect (or be affected by) working farm or forest lands.

**1. Will the proposal affect or be affected by surrounding working farm or forest land normal business operations, such as oversize equipment access, the application of pesticides, tilling, and harvesting? If so, how?**

NA/This project will not affect (or be affected by) working farm or forest lands.

---

<sup>11</sup> <https://ecology.wa.gov/Regulations-Permits/SEPA/Environmental-review/SEPA-guidance/SEPA-checklist-guidance/SEPA-Checklist-Section-B-Environmental-elements/Environmental-elements-8-Land-shoreline-use>

- c. **Describe any structures on the site.**  
Single family residence, small shed, dock and boat house.
- d. **Will any structures be demolished? If so, what?**  
The boat house is proposed to be removed.
- e. **What is the current zoning classification of the site?**  
R-15
- f. **What is the current comprehensive plan designation of the site?**  
Single Family Residential (R)
- g. **If applicable, what is the current shoreline master program designation of the site?**  
Urban Residential Environment
- h. **Has any part of the site been classified as a critical area by the city or county? If so, specify.**  
Unknown.
- i. **Approximately how many people would reside or work in the completed project?**  
Zero/Docks are not considered habitable space
- j. **Approximately how many people would the completed project displace?**  
Zero/None
- k. **Proposed measures to avoid or reduce displacement impacts, if any.**  
NA/Project will not displace residents
- l. **Proposed measures to ensure the proposal is compatible with existing and projected land uses and plans, if any.**  
Project is consistent with permissible accessory residential uses and will be similar in both size/scale to the other accessory dock structures in proximity.
- m. **Proposed measures to reduce or control impacts to agricultural and forest lands of long-term commercial significance, if any:**  
NA/Project will not produce impacts that will impact agricultural/forest lands

## 9. Housing

[Find help answering housing questions](https://ecology.wa.gov/Regulations-Permits/SEPA/Environmental-review/SEPA-guidance/SEPA-checklist-guidance/SEPA-Checklist-Section-B-Environmental-elements/Environmental-elements-9-Housing)<sup>12</sup>

- a. **Approximately how many units would be provided, if any? Indicate whether high, middle, or low-income housing.**  
NA/None

---

<sup>12</sup> <https://ecology.wa.gov/Regulations-Permits/SEPA/Environmental-review/SEPA-guidance/SEPA-checklist-guidance/SEPA-Checklist-Section-B-Environmental-elements/Environmental-elements-9-Housing>

- b. **Approximately how many units, if any, would be eliminated? Indicate whether high, middle, or low-income housing.**

NA/None

- c. **Proposed measures to reduce or control housing impacts, if any:**

NA/None

## 10. Aesthetics

[Find help answering aesthetics questions](#)<sup>13</sup>

- a. **What is the tallest height of any proposed structure(s), not including antennas; what is the principal exterior building material(s) proposed?**

NA/No upland construction proposed.

- b. **What views in the immediate vicinity would be altered or obstructed?**

NA/No views would be obstructed.

- c. **Proposed measures to reduce or control aesthetic impacts, if any:**

Design and scale of dock proposed match scale/intensity of similar adjacent properties.

## 11. Light and glare

[Find help answering light and glare questions](#)<sup>14</sup>

- a. **What type of light or glare will the proposal produce? What time of day would it mainly occur?**

NA/Lighting is not proposed as part of project actions.

- b. **Could light or glare from the finished project be a safety hazard or interfere with views?**

NA/Light and glare will not be produced by finished project.

- c. **What existing off-site sources of light or glare may affect your proposal?**

NA/None

- d. **Proposed measures to reduce or control light and glare impacts, if any:**

NA/None

---

<sup>13</sup> <https://ecology.wa.gov/Regulations-Permits/SEPA/Environmental-review/SEPA-guidance/SEPA-checklist-guidance/SEPA-Checklist-Section-B-Environmental-elements/Environmental-elements-10-Aesthetics>

<sup>14</sup> <https://ecology.wa.gov/Regulations-Permits/SEPA/Environmental-review/SEPA-guidance/SEPA-checklist-guidance/SEPA-Checklist-Section-B-Environmental-elements/Environmental-elements-11-Light-glare>

## 12. Recreation

[Find help answering recreation questions](#)

- a. **What designated and informal recreational opportunities are in the immediate vicinity?**

Recreational opportunities are centered around water dependent uses on subject parcel and adjacent properties.

- b. **Would the proposed project displace any existing recreational uses? If so, describe.**

No, the proposed project would not displace existing access to recreational uses.

- c. **Proposed measures to reduce or control impacts on recreation, including recreation opportunities to be provided by the project or applicant, if any:**

NA/No measures to reduce or control impacts on recreation, but improvements proposed to provide opportunity for improved access to water enjoyment use for homeowner.

## 13. Historic and cultural preservation

[Find help answering historic and cultural preservation questions](#)<sup>15</sup>

- a. **Are there any buildings, structures, or sites, located on or near the site that are over 45 years old listed in or eligible for listing in national, state, or local preservation registers? If so, specifically describe.**

Unknown.

- b. **Are there any landmarks, features, or other evidence of Indian or historic use or occupation? This may include human burials or old cemeteries. Are there any material evidence, artifacts, or areas of cultural importance on or near the site? Please list any professional studies conducted at the site to identify such resources.**

No landmarks (including cemeteries or areas of cultural importance) are on or adjacent to the site.

- c. **Describe the methods used to assess the potential impacts to cultural and historic resources on or near the project site. Examples include consultation with tribes and the department of archeology and historic preservation, archaeological surveys, historic maps, GIS data, etc.**

NA/No overland work proposed.

- d. **Proposed measures to avoid, minimize, or compensate for loss, changes to, and disturbance to resources. Please include plans for the above and any permits that may be required.**

NA/No resource loss or change anticipated.

---

<sup>15</sup> <https://ecology.wa.gov/Regulations-Permits/SEPA/Environmental-review/SEPA-guidance/SEPA-checklist-guidance/SEPA-Checklist-Section-B-Environmental-elements/Environmental-elements-13-Historic-cultural-p>

## 14. Transportation

[Find help with answering transportation questions<sup>16</sup>](#)

- a. **Identify public streets and highways serving the site or affected geographic area and describe proposed access to the existing street system. Show on site plans, if any.**

NA/No upland work proposed. All site access is from in water using barges.

- b. **Is the site or affected geographic area currently served by public transit? If so, generally describe. If not, what is the approximate distance to the nearest transit stop?**

NA/No upland work proposed.

- c. **Will the proposal require any new or improvements to existing roads, streets, pedestrian, bicycle, or state transportation facilities, not including driveways? If so, generally describe (indicate whether public or private).**

NA/No upland work proposed.

- d. **Will the project or proposal use (or occur in the immediate vicinity of) water, rail, or air transportation? If so, generally describe.**

NA/No upland work proposed.

- e. **How many vehicular trips per day would be generated by the completed project or proposal? If known, indicate when peak volumes would occur and what percentage of the volume would be trucks (such as commercial and nonpassenger vehicles). What data or transportation models were used to make these estimates?**

NA/All site access is done by barge.

- f. **Will the proposal interfere with, affect, or be affected by the movement of agricultural and forest products on roads or streets in the area? If so, generally describe.**

NA/All site access is done by barge.

- g. **Proposed measures to reduce or control transportation impacts, if any:**

NA/No measures are proposed or applicable.

## 15. Public services

[Find help answering public service questions<sup>17</sup>](#)

- a. **Would the project result in an increased need for public services (for example: fire protection, police protection, public transit, health care, schools, other)? If so, generally describe.**

NA/No increased need for public services will be generated.

- b. **Proposed measures to reduce or control direct impacts on public services, if any.**

---

<sup>16</sup> <https://ecology.wa.gov/Regulations-Permits/SEPA/Environmental-review/SEPA-guidance/SEPA-checklist-guidance/SEPA-Checklist-Section-B-Environmental-elements/Environmental-elements-14-Transportation>

<sup>17</sup> <https://ecology.wa.gov/regulations-permits/sepa/environmental-review/sepa-guidance/sepa-checklist-guidance/sepa-checklist-section-b-environmental-elements/environmental-elements-15-public-services>

NA/No proposed measures are relevant.

## 16. Utilities

[Find help answering utilities questions<sup>18</sup>](#)

- a. Circle utilities currently available at the site: electricity, natural gas, water, refuse service, telephone, sanitary sewer, septic system, other:
- b. Describe the utilities that are proposed for the project, the utility providing the service, and the general construction activities on the site or in the immediate vicinity which might be needed.

NA/No utilities are proposed for the project.

## C. Signature

[Find help about who should sign<sup>19</sup>](#)

The above answers are true and complete to the best of my knowledge. I understand that the lead agency is relying on them to make its decision.

X

<sup>20</sup> <https://ecology.wa.gov/regulations-permits/sepa/environmental-review/sepa-guidance/sepa-checklist-guidance/sepa-checklist-section-d-non-project-actions>

When answering these questions, be aware of the extent the proposal, or the types of activities likely to result from the proposal, would affect the item at a greater intensity or at a faster rate than if the proposal were not implemented. Respond briefly and in general terms.

**1. How would the proposal be likely to increase discharge to water; emissions to air; production, storage, or release of toxic or hazardous substances; or production of noise?**

- **Proposed measures to avoid or reduce such increases are:**

**2. How would the proposal be likely to affect plants, animals, fish, or marine life?**

- **Proposed measures to protect or conserve plants, animals, fish, or marine life are:**

**3. How would the proposal be likely to deplete energy or natural resources?**

- **Proposed measures to protect or conserve energy and natural resources are:**

**4. How would the proposal be likely to use or affect environmentally sensitive areas or areas designated (or eligible or under study) for governmental protection, such as parks, wilderness, wild and scenic rivers, threatened or endangered species habitat, historic or cultural sites, wetlands, floodplains, or prime farmlands?**

- **Proposed measures to protect such resources or to avoid or reduce impacts are:**

**5. How would the proposal be likely to affect land and shoreline use, including whether it would allow or encourage land or shoreline uses incompatible with existing plans?**

- **Proposed measures to avoid or reduce shoreline and land use impacts are:**

**6. How would the proposal be likely to increase demands on transportation or public services and utilities?**

- **Proposed measures to reduce or respond to such demand(s) are:**

7. Identify, if possible, whether the proposal may conflict with local, state, or federal laws or requirements for the protection of the environment.
