SHORELINE EXEMPTION

A Shoreline Exemption is a confirmation provided by the City that a given scope of work within the shoreline jurisdiction meets the criteria of one of the exemptions listed in [WAC 173-27-040](#), and is therefore exempt from needing a Shoreline Substantial Development Permit.

REVIEW PROCESS – TYPE I LAND USE REVIEW

Type I reviews are based on clear, objective and nondiscretionary standards or standards that require the application of professional expertise on technical issues. Type I reviews do not require a pre-application meeting, letter of complete application, public notification, notice of application mailing and posting, public comment periods, public hearing, or notice of decision. The decision is made by the Code Official.

PRE-APPLICATION MEETING

A Pre-Application Meeting is used to determine whether a land use project is ready for review, to review the land use application process, and to provide an opportunity for initial feedback on a proposed application. Some land use applications require a pre-application meeting – in particular: short and long subdivisions, lot line revisions, shoreline permits, variances, and critical area determinations. The City strongly recommends that all land use applications use the pre-application process to allow for feedback by City staff.

For more information on the Pre-Application Meeting process, please refer to the [Pre-Application Meeting Request Form](#).
